### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 6, 2007 has been entered.

This office action is in response to Applicant's amendment filed September 6, 2007. Applicant's amendment canceled claims 4, 6-8, 12-17 and 20 and amended claims 1-3, 5, 9-11, 18-19 and 21-28. Claims 1-3, 5, 9-11, 18-19 and 21-28 are pending and are subject to a restriction as outlined below.

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-3, 5, 18-19 and 21-28, drawn to a system for reviewing performance capabilities of individuals by a reviewer, classified in class 705, subclass 11.
- II. Claims 9-11, drawn to a method for scoring and ranking individuals to support the selection of candidates for positions, classified in class 705, subclass 11.

The inventions are distinct, each from the other because:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, Invention I is a system to support the review of the performance capabilities of individuals by a reviewer; Invention II is a method to support the selection of candidates for job positions by scoring and ranking individuals performance capabilities.

Invention I has separate utility in supporting a reviewer's review/assessment of individuals performance capabilities wherein the individuals maybe currently employed (i.e. already selected for a position), potential job candidates or the like. Invention II has separate utility as a method for selecting job candidates for positions based on scored and then ranked performance capabilities.

Further one does not need to support/perform a review, by a reviewer external to the system, of individuals', either currently employed, formerly employed or potentially employed, performance capabilities (Invention I) in order to score and rank the potential job candidates for the purposes of selecting a job candidate (Invention II).

The subcombination has a separate utility such as selecting job candidates based on both a scoring and ranking of the individual job candidates performance capabilities and the reviewer's review of the individual's performance capabilities. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Groups I or II are not required for Groups I or II restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
